TRADING AND CONTRACTING

HVAC SOLUTIONS

Your Comfort, Our Priority

www.signinn.qa

ABOUT US

Established in 2010, SIGN INN is a trusted engineering and contracting company delivering comprehensive HVAC solutions across Qatar.

We specialize in the design, installation, maintenance, and servicing of HVAC systems for commercial, industrial, and residential projects.

Backed by a skilled team of professionals, we are committed to providing high-quality, energy-efficient, and cost-effective solutions with a strong focus on safety, reliability, and customer satisfaction.

OUR VISION

To be the most trusted construction partner, delivering innovative, high-quality, and sustainable solutions with excellence, safety, and reliability.

OUR MISSION

Our mission is to deliver timely, cost-effective, and high-quality services that exceed expectations through innovation, integrity, professionalism, and exceptional customer support.

OUR SERVICES

Our HVAC Division delivers expert installation, maintenance, and repair services for residential, commercial, and industrial facilities. We provide reliable, energy-efficient solutions that enhance

indoor comfort, air quality, and system performance through customized design, preventive maintenance, and professional support.

HOW DOES HVAC SYSTEM WORKS?

An HVAC (Heating, Ventilation, and Air Conditioning) system maintains comfortable indoor environments by controlling temperature, humidity, and air quality. Through heating, cooling, and ventilation processes, it provides efficient and consistent comfort in residential, commercial, and

industrial spaces. The system consists of key components such as heating and cooling units, ventilation systems, air filters, ductwork, thermostats, and controls. Together, they regulate airflow and indoor conditions, ensuring reliable performance, improved air quality, and occupant comfort.

1 DUCTWORK

Network of channels that distributes heated or cooled air throughout a building, delivering conditioned air to different rooms and areas.

2 AIR CONDITIONER / HEAT PUMP

Cools indoor air by removing heat and releasing it outside. A heat pump can also provide heating by reversing the cooling process.

3 VENTS / REGISTERS

Openings in walls, floors, or ceilings that deliver conditioned air into rooms and can be adjusted to control airflow direction.

4 THERMOSTAT

Controls the HVAC system by setting the desired temperature and regulating heating or cooling as needed.

5 AIR FILTERS

Air Filters Remove dust, pollen, and other particles from the air, improving indoor air quality and protecting the HVAC system from debris.

6 CONTROL BOARD

Control Board Monitors & controls HVAC operations by receiving thermostat signals & activating components to maintain the desired temperature.

WHY CHOOSE OUR HVAC SOLUTIONS

COMFORT

HVAC systems provide year-round comfort by keeping indoor spaces cool in summer and warm in winter, ensuring a pleasant environment regardless of outdoor weather conditions.

TEMPERATURE CONTROL

HVAC systems provide precise temperature control, allowing customized comfort in different rooms or zones to suit individual preferences.

ENERGY EFFICIENCY

Modern HVAC systems use less energy while maintaining excellent performance, helping reduce energy costs and environmental impact.

IMPROVED INDOOR AIR QUALITY

HVAC systems use air filters to remove dust, pollen, allergens, and other airborne particles, helping maintain clean and healthy indoor air.

HUMIDITY CONTROL

HVAC systems regulate indoor humidity levels, helping prevent mold, dryness, and discomfort while maintaining a healthy and comfortable environment.

NOISE REDUCTION

HVAC systems are designed to operate quietly, providing a peaceful and noise-free environment.

INCREASED PROPERTY VALUE

A reliable and efficient HVAC system can enhance property value, making it more attractive to buyers and tenants.

OUR PROJECTS

NO	CLIENT	PROJECT NAME
1	Qatar airways	- Qatar Desert Retreat Resort at Ras Abrouq - Qatar Desert Retreat Resort at Ruwais Port
2	Ministry of Interior	- Renovation of Qatar National Library - Design & Build of Grandstand for Al Uqda - Equestrian Complex - Souq at Meseieed
3	US Army	8070 Trans Regional Logistics Complex
4	Ministry of Awqaf	Above 30
5	Abdulla Abdulghani & Bros.	Toyota Service Center & Showroom at Umm Swayya, Al Khor
6	Ministry of Force	Waterproofing Work Store Building at Ras Abood
7	WOQOD	Above 40 fuel station
8	Qatar Steel	- Waterproofing System for Qatar Steel at Mesaieed - Office Building at Mesaieed
9	The Qatar Armed Forces	Qatar Armed Forces Building at New Industrial Area
10	Jotun Qatar	Finished Goods Warehouse at Birkat Al Awamer
11	Kesab Trading & Contracting	VIP Villa at Barzan
12	Kahramaa	Eight Sub-Station
13	Qatar Foundation	Villa at Qatar Foundation
14	Apparel Group	- File Work at City Center, Doha - Apparel Distribution Center at Qatar Free Zone
15	Amiri Guard	Workshop Building at Barzan Camp
16	Barwa	Al Khor Community Villa at Al Khor
17	Qatar Energy	MT- 0178 at Ras Laffan
18	American Air Base	Villa at Al Udeid
19	Ministry of Public Health (MOPH)	Office Building at Ruwaila
20	Immanuel Mar Thoma Church	Church – Community Area
21	The Shura Council	- Advisory Council Govt Office Building at Al Sadd - Ground Floor Front Work at Criminal Court- Al Sadd
22	Private Owner	- Palace at Wukair - Villa at Al Khor
23	Radisson Blu	Radisson Blu Hotel PU Foam Work at Salwa Road
